From the President:

eNewsletter: September 2015

Dear Fellow Zontians,

Sometimes we need to say thank you to people who do what they do all the time, and it then becomes the norm. In our club, we have many members like this and before we get busy with all the end of year proceedings, I would like to take this time to say 'Thank You' to our members who do undertake these regular things continuously. It is impossible to thank everyone, but Berenice does need a special thanks for always doing this newsletter and sending out reminders to those of us who have little things to do such as the President's section. Without Berenice, I know I would forget; so thank you Berenice.

It is with pleasure that I can inform the club our District Governor, Judith Trevan-Hawke, will be attending our February dinner meeting. I am sure we will all make a special effort to attend and welcome her.

Again, if you haven't done so, please ensure you have registered for the District Conference and keep an eye on the ZI website as the call to Convention should be coming soon.

Until next month'
Regards,
Rosalie.

Please note:

If you are unable to attend the dinner meeting, please advise Anna Tempest Ph: 4928 7880 (W) Ph: 4928 7125 (H) by 10 am on the Monday before the meeting. Failure to apologize will incur payment of \$30.00.

During the **2014-2016 Biennium**, three projects are being supported by the International Service Fund:

1. Towards Elimination of Obstetric Fistula and Reduction of Maternal and Newborn Mortality in Liberia
2. Working Toward an HIV-Free Generation Effective Prevention and Response to Gender Based Violence in Rwanda
3. Gender Responsive Schools Pilot Model

Project Update May 2015 Towards Elimination of Obstetric Fistula and Reduction of Maternal and Newborn Mortality in Liberia

In cooperation with the United Nations Population Fund (UNFPA), Zonta International has supported the Liberia Fistula Project since 2008. During the 2012-2014 Biennium, the program moved from project-based treatment to treatment integrated into the government's national health system.

- Goal:**
- Contribute to the elimination of obstetric and traumatic fistula and the reduction of maternal mortality, morbidity and sexual violence against women in Liberia.
 - Improve the overall health and socioeconomic status of women and young girls in Liberia and to empower them economically.

Project Activities:

Treatment:

- Through a mass advocacy campaign and surgical outreach, 150 women and girls were recruited and received surgical treatment for fistula. The original treatment goal was 300 women and girls; however, a number of factors contributed to the lower numbers, including:
- A reduction in newly occurring cases as a result of successful prevention strategies that encourage women to deliver in hospitals to prevent fistula. Many of the cases that are presenting now are recurrent or complicated cases; however, the Project estimates 5,000 women and girls still need treatment.
- A hospital in Monrovia is providing surgical repairs by flying in a team of doctors to perform the surgeries; however, only two visits have been made since May 2013.
- Many women lack funds necessary to reach a project site. In the past, the Project relied on partnerships with other NGOs to transport patients from hard-to-reach areas, but many of those NGOs are leaving.

Rehabilitation:

The Project is conducting skill training and adult literacy programs for 18 fistula survivors on a four-to six month training cycle program.

During the reporting period 50 survivors were rehabilitated and reintegrated into their communities. 33 survivors were followed up with after leaving the rehabilitation center. Of those 33, all were still practicing the economic skills they acquired at the rehabilitation center. Five expanded their businesses from the original starter kits and 28 were on track to acquire enough income to sustain their families. 1 survivor who became pregnant again was closely monitored and delivered a healthy baby by caesarean section, without fistula. From the experiences shared by survivors, stigmatization is still a real challenge. Also, the Project provided psychological support for survivors to rebuild their hope and restore their confidence.

Breast Cushion Working Bee.

Zontians were kept very busy at the recent Breast Care Cushion working bee as they stuffed, pinned and sewed approximately 50 cushions to add to the supply. This working bee followed from the cutting out session which was held earlier. The members usually make 120—130 cushions each year for distribution to patients. Many thanks to all who attended—and to Suzan for the use of her business premises. Great publicity was also received on the Morning Bulletin website and in the Morning Bulletin daily newspaper.

Dinner Raffle:
